Canine Reproduction & Whelping and Puppy Intensive Care Seminar

Saturday November 3, 2018 - 9:00 am - 4:00 pm

Brightwater Environmental Education and Community Center
22505 WA Route 9
Woodinville, WA. 98072

Whether you are experiencing your 1st or 20th litter, have ever lost a puppy, lost a bitch, or had a breeding that did not take, this seminar is for you. Saving the life of just one pup, or that one special bitch will make this seminar a worthy investment. Myra teaches techniques that have helped save countless pups and bitches. Things you just don't think of without having lived it.

Myra's excellent book "*Canine Reproduction and Whelping*" covers the basics of breeding. Myra explains the characteristics of sperm and egg, the role of diet in whelping and how to whelp pups. The seminar is intended to assist you to get your bitch in whelp, get her to stay in whelp, and to deliver healthy pups; she devotes time to stuck-puppy, breech puppy and post-partum care.

Another book by Myra "*Puppy Intensive Care*" shows breeders how to set up an intensive care unit at home for delivering the support that a sick or weak pup might need. Myra also teaches how to tube feed, use sub-Q fluids, how to deliver oxygen, etc. All techniques to keep your puppy losses to a minimum.

Myra also focuses on sperm in every conceivable way including counts and how to maximize your stud dog's capabilities. It includes the bitch's reproductive system from first heat to spay and includes all the information you will need to coordinate the stud dog with the bitch's timing for breeding(s).
