Dr. Brad Evergreen has worked in Woodinville Washington for 3 years at a small mixed animal hospital, and 1 year at a busy walk-in practice in Lynnwood Washington. He also serves the greater community by his seat on the Leadership Council for the Humane Society Veterinary Medical Association (HSVMA), an exciting new organization that promotes humane treatment for all animals. His website is <http://evergreenholisticvet.com> where he practices holistic medicine as well as conventional medicine and Chinese herbs.

Dr. Evergreen will primarily speak about canine nutrition and most specifically on the manufactured dog foods. He will discuss flea medications, vaccinations and overall dog health. He will discuss how you have the potential to increase your dog's life span by 15% by feeding them the proper foods. We are grateful for Dr. Evergreen to give his time and expertise for this lecture on Health. It's not to be missed

Westies: Are welcomed, there is a secure outside fenced area called Adventureland. We need volunteers to take turns in being "pack leader" for playground. Please bring your dog on leash or crate or expen during the conference. General short general meeting during lunch or right after lunch.
